

A review by an EU INTENSE partner

Course: Ecological Engineering

Credits	3 ECTS (selective course), 22.5 in-class hours
Level	MSc and PhD courses
Host institution	Faculty of Environment, HCMUNRE, Vietnam

Assessment criteria	Answer			Comments
	Yes	No	Need to be modified	
The course has appropriate place in curricula (year and semester of study)	+			
Contents is relevant to the PhD program requirements	+			
The course contents is well developed and allows to achieve learning outcomes and skills	+			
Aim and objectivers are well formulated	+			
Distribution of workload is well balanced	+			There is a discrepancy among the top table (3 ECTS) and the description after course name (2 credits)
Grading system is well developed and distribution of scores is well balanced	+			
Teaching methods are relevant	+			
Literature is relevant	+			
The course can be proposed to PhD students on other specialties and research areas	+			

Overall assessment and comments:

Well designed course, that gives wide range of knowledge on the basics of ecological engineering. Course provides students to have needed independent work tasks and is overall nicely thought through. There are used different active learning methods that allows students to implement and show their knowledge.
