

## A review by an EU INTENSE partner

### Course: Solid Waste and Hazardous Waste Treatment Engineering

Credits	4.5 ECTS (Compulsory course), 33.75 in-class hours
Level	MSc and PhD courses
Host institution	Faculty of Environment, HCMUNRE, Vietnam

Assessment criteria	Answer			Comments
	Yes	No	Need to be modified	
The course has appropriate place in curricula (year and semester of study)	Y			
Contents is relevant to the PhD program requirements	Y			
The course contents is well developed and allows to achieve learning outcomes and skills	Y			
Aim and objectives are well formulated	Y			
Distribution of workload is well balanced	Y			The course workload table has a few minor errors regarding the total of workload hours
Grading system is well developed and distribution of scores is well balanced	Y			
Teaching methods are relevant	Y			
Literature is relevant	Y			
The course can be proposed to PhD students on other specialties and research areas	Y			If the required courses have been passed

#### Overall assessment and comments:

The course is well designed. The contents of the course are relevant for a PhD or a MSc student. The work load is well balanced between lectures, discussion seminars, presentations, web application, independent work etc. The grading system takes all of the different teaching methods into consideration and also includes a final examination. It is good that the course includes presentations and group exercises, which encourage teamwork.
