

## A review by an EU INTENSE partner

### Course: Land use and pasture management

Credits	2 ECTS (optional course), 30 in-class hours
Level	MSc and PhD students
Host institution	Khovd University of Mongolia

Assessment criteria	Answer			Comments
	Yes	No	Need to be modified	
The course has appropriate place in curricula (year and semester of study)	Y			
Contents is relevant to the PhD program requirements	Y			
The course contents is well developed and allows to achieve learning outcomes and skills	Y			
Aim and objectivers are well formulated	Y			
Distribution of workload is well balanced	Y			
Grading system is well developed and distribution of scores is well balanced	Y			
Teaching methods are relevant	Y			
Literature is relevant	Y			
The course can be proposed to PhD students on other specialties and research areas	Y			

#### Overall assessment and comments:

The course content is well developed approaching the issues of pasture degradations, management and planning. The lectures are well balanced and the students have place for discussion and presentation (individual and group work). A visit to a pastureland could be interesting to show to the students what they are learning in class.
