

A review by an EU INTENSE partner

Course: Research methodology of science

Credits	3 ECTS
Level	MSc and PhD courses
Host institution	Khovd University of Mongolia

Assessment criteria	Answer			Comments
	Yes	No	Need to be modified	
The course has appropriate place in curricula (year and semester of study)	Y			
Contents is relevant to the PhD program requirements	Y			
The course contents is well developed and allows to achieve learning outcomes and skills	Y			
Aim and objectives are well formulated	Y			
Distribution of workload is well balanced	Y			
Grading system is well developed and distribution of scores is well balanced	Y			
Teaching methods are relevant	Y			
Literature is relevant	Y			
The course can be proposed to PhD students on other specialties and research areas	Y			If the required courses have been passed

Overall assessment and comments:

The course is well designed. The contents of the course are relevant for a PhD or a MSc student. The work load is well balanced between lectures, discussion seminars and independent work. The grading system takes all of the different teaching methods into consideration. It is good that the course includes exercises for evaluating the work of other scientist and also creating new content.
